1989 ANNUAL BANQUET

The Cajon Division's Annual Banquet this year will be on Saturday, March 25. The location will be the Embassy Suite Hotel, 3100 E. Frontera, in Anaheim (714) 632-1221.

Social Hour will be from 6:30 to 7:30 with dinner starting at 7:30 p.m.

Among the activities to take place - the years financial report - Achievement Awards - Golden Spike Awards - Man of the Year 1988. This year we will be doing something different -- that's right folks, no movies! The audience will be participating in the "New" PRICE IS RIGHT.

Mark your calendar for a fun filled evening with friends at the 1st activity for 1989 in your Cajon Division. Fill out the entry form in this issue or call John (714) 947-4389.

P.S. The Editor has marked one issue of this edition with a special message. Bring in this issue and receive a free meal!

LAYOUT TOUR

Last summer the Cajon Division had five excellent pikes in our layout tour. They were at the homes of Wally Booth, Orlyn Glover, Fred Schrock, Jim McMasters, and Don Oldendorf's. Each was unique and all were different from one another.

Wally's was the "newest" of the layouts. Started only a few years ago, Wally has made considerable progress since his early beginnings.

Orlyn has an outdoor garden layout which, in June 1988, received its 10 year spike. He uses Carrier Control which can operate 8 channels. He has 5 control panels to operate all of the divisions, and the total length of trackage is over 500 feet and can be operated in a continuous loop by going across a 6 foot redwood trestle. The backyard is lighted with low voltage lights and night time running can be a truly great experience, watching the engine headlights, signal lights, and station structures all lit up.

Fred's F.G.&S. Railroad is 24 years young. He operates it from a room over his garage (I hate you Fred), with four operators. His layout has 3 levels and the track is on a 2% grade, except from the bridge to the "cut" which is 2 1/2%. He has added 18 feet of mirrors on the far end of the room which enables viewers to see the back of his layout. Many of his cars and engines are custom painted by his son who lives in Colorado. (I only hope my layout can look as good as his in 24 years).

Jim's layout is complete, except for a few trees which he may add later. It's a loop to loop with 5 towns. Three engineers can operate three trains at one time. Normally 9 trains are used on an operating session, but he has used 10 trains. Those sessions usually last around 2 1/2 hours. Jim belongs to a Round Robin club with 13 members, and the club has been around for 21 years.

Don's Eagle and Cripple Creek Railroad is one of the most unique layouts in Orange County. When he is not operating his layout, it is raised to the ceiling by cable wires (so his wife can park her car). Began on April 3, 1980, he named it after

the spaceship Eagle because when his layout is in the raised position, its legs reminded him of the Eagle. The basic design is a loop to loop with a division point yard.

PIKE ADS

For those of you who want to show support for your hobby, displaying your Pike in The Order Board is one sure way to do it. Your pike ads provide the additional funds to help cover the increased costs associated with this publication.

CAJON DIVISION MEMBERS may advertise their pikes for half the cost of commercial ads. Ads are limited to business card size.

All we need from you is the black and white camera ready art work. For more information, call Rick at (714) 533-6484 or Ralph at (714) 524-0934.

ACHIEVEMENT NEWS (AND GOSSIP) by VIC PRIOR

There are a lot of modelers out there in "Cajon Land" that already qualify for the "Golden Spike Award." What is that? Well, it's the NMRA's attempt to recognize you folks that have begun to achieve excellence in model railroading. I said, "MODEL RAILROADING." Not necessarily contest quality modeling. This award is suitable for framing and is done in beautiful script. You will be proud to display it on your train room wall! Want do I have to do, you ask?

Well I'm glad you asked--because it's very simple. Listen up!

Category "A" - Rolling Stock (Motive power & cars)

1. Display six (6) units of rolling stock (scratchbuilt, craftsman or detailed commercial kits). NOTE: They may be Athearn, MDC, or whatever...!

Category "B" - Model Railroad setting (structures & scenery)

1. Construct a minimum of eight (8) square feet of layout.
2. Construct five (5) structures (scratch built, craftsman, or detailed commercial kits). If your module/layout has less than five, additional ones separate from the scene may be presented. NOTE: These may be plastic kits & need not be detailed to the "nth" degree!

Category "C" - Engineering (Civil and electrical)

1. Three types of trackage required (turnout, crossing, crossover, wye, etc). All must be properly ballasted and installed on proper roadbed. Of course, commercial track may be used. See how easy this is!
2. All trackage above must be wired properly so two trains can be operated simultaneously. (Double track main, single track main with sidings and block or command control) NOTE: Don't read more into this than there really is. Most of you have already done the above!
3. Provide one additional electrical feature such as a powered turnout, signalling, turnout indication, or a lighted building, etc.

Now most of you are saying to yourselves right now "I've done all of this already or most of it except for one or two things! Those one or two items can be done in less than an

evening in most cases.

If model railroading has gone somewhat stale for some of you - revive it by accomplishment! It will awaken that neat feeling in you that comes when you display your models and your NMRA Achievement Certificate "Golden Spike Award."

Call me when you are ready to start or when you are ready for me to examine your efforts.

Further, if you still have questions concerning requirements for the award call me at (714) 255-0185 and I'll help you get underway. Do it now!!

For the 15-20 awards already extended this year --you folks will be receiving your award and recognition at the Cajon Banquet on March 25, 1989. Be sure and mark your calendar to attend this annual affair. It will be an evening for you and your sweetheart. See 'ya there.

VIC

1990 PSR CONVENTION

The Cajon Division is planning to host the 1990 NMRA PSR Convention. We need volunteers to assist us in the following areas:

Layout tours
Prototype tours
Clinics
On site layout display
Contest organization
Audio-visual
Manufacturers and Commercial
Railette activities
Registration
Treasurer

Please contact Vic Prior at Discount Train Warehouse (714) 255-0185 or Cliff Edlund (714) 990-0849.

FROM THE D.S.

As we enter 1989 the Cajon Division will be planning some new and exciting activities for the membership. In this issue is the agenda for the Annual Banquet to be held at the Embassy Suite Hotel in Anaheim.

In the recent months the Division has had many problems due to the high cost of facilities in the counties of Orange and San Bernardino. An example is our past summer meet location of Mariposa Elementary School in Brea, where our fees tripled from \$90.00 to \$285.00, thus making it impossible to hold meets there.

I am at this time asking you, the membership of 287, to come forward with any information regarding locations for future meets. Possibilities could be churches, VFW Halls, schools, clubs, etc. Any help would be much appreciated.

Some possible activities this year planned are a layout tour, summer meet, auction, and prototype tour. Anyone willing to help our small staff, please call me any evening at (714) 947-4389.

Thanks

JOHN HACHEY
